ROOSEVELT RETIRES; TAFT TAKES CHARGE

New President Outlines Policy of His Administration in Inaugural Address on Assuming Office.

WASHINGTON, March 4.—President Taft and Vice-President Sherman were inducted into office today according to program. Over 200,000 visitors were here to witness the great event and the hotels and boarding-houses were taxed to their utmost to accommodate them.

The time-honored inaugural parade claimed more attention than the inaugural ceremony itself, and there were fully 50,000 men in line, including the Governors of fourteen States and their staff; three thousand blue jackets from the fleet which has just encircled the globe; marching clubs from every section, probably the largest of which delegations was that of 1,000 members of the New York County Republican Club, which had the distinction of escorting the retiring President to the station before falling in line in the inaugural parade, and many other organizations.

The President and President-elect and the Vice-President and Vice-President-elect, accompanied by the joint

committee of Congress, proceeded from the White House to the Capitol in carriages at 10 a. m., followed in carriages by members of the cabinet, the secretary to the President and the President's aides.

Arriving at the Capitol at 10:20, the President and President-elect were escorted to the President's private room in the Senate and the Vice-President and Vice-President-elect to the Vice-President's room, also on the Senate side, to await the inaugural ceremonies. Promptly at noon Vice-President-elect Sherman took oath of office in the Senate chamber, and then addressed that body, whereupon the Senate organized.

The oath of office was administered to Mr. Taft by Chief Justice Fuller of the Supreme Court of the United States at 12:40 p. m., on the stand at the east front of the Capitol. President Taft then made his inaugural address, which, owing to the extremely cold and blizzard weather, was delivered in the Senate chamber. It was as follows:

Report of J. D. Matheson, county

NEWS FROM ALL PARTS OF FLORIDA

The county division spirit is now rife in Sumter county.

The Pensacola navy yards have been closed, throwing 300 men out of employment.

The Florida Booster Club, numbering 1,000 members, are planning a mammoth banquet to be held at the Jacksonville Exposition building March 20th.

The Board of Commissioners of State Institutions have directed the secretary to correspond with dealers in fire extinguishers relative to purchasing six extinguishers for use at the Governor's mansion.

The seven-year-old daughter of Mrs. W. R. Smith, residing in Riverside, Jacksonville, had a narrow escape from death in a burning building Friday morning. The child was brought from the building in a critical condition and it is not known whether she will recover.

The coroner's jury which was investigating the death of W. B. Ford, whose body was found on the river front at the foot of Market street in Jacksonville last Sunday morning, returned a verdict of murder by unknown parties. His head was found to have been fractured in six different places.

Pensacola harbor has fared well in the river and harbor bill, according to reports from Washington. A bill containing an appropriation of \$110,000 for improving Pensacola harbor has been passed by Congress. With this amount the dredge Caucus can be placed back at work and kept in operation until another appropriation is made.

An octopus, measuring four feet across, was picked up in the bay this morning by Mr. Pope and placed on exhibition in front of Thayer's curio store, where it attracted a crowd of tourists. The cold water had chilled it and it was easily picked up with the hand. They will grow to sixteen or eighteen feet stretched out, although that is an unusual size. Eight feet is an average size for these waters.—St. Petersburg Independent.

While placing a chandelier in position in the Court Pharmacy in Ocala Thursday afternoon J. A. McKenzie came in contact with a live wire which pulled him from the step ladder on which he was standing and when the current was turned off let him drop into one of the largest show cases, causing a deep gash back of his right ear and several cuts on his face and hands. Dr. Powers was summoned and dressed the injured man's wounds, which were not serious. The handsome case had just been stocked with toilet articles of all descriptions, many of which were damaged to considerable extent. The loss including the plate glass top and shelves will amount to \$100. At the time of the accident the store was well filled and caused considerable excitement.

treasurer, showing the condition of the several funds, received as follows: General revenue, \$4,761.91; general road, \$8,130.39; No. 1 road, \$175.16; No. 2 road, \$770.75; fine and forfeiture, \$9,133.45; game license, \$870.50; school, general, \$2,677.60; school, special, \$1,997.97. Total, \$28,517.73.

The bond of S. Rawls & Co., lessees of the county convicts, was ordered approved.

J. S. Goode was allowed to erect poles for private telephone wire from Gainesville along Hawthorn road for a distance of one-half mile.

J. G. Dampier was instructed, as chairman, to write to the State Comptroller and ask for thirty days' extension of time on the closing of tax books.

Whereupon the board adjourned.

FLORIDA LEADS ALL IN NAVAL STORES

Georgia is Second and Alabama Third in the Great Industry, While Texas Comes Last.

WASHINGTON, D. C., March 6.—Of the eight Southern States, each producing more than 200,000 gallons of turpentine and 25,000 barrels of rosin, Florida leads the list with 17,030,300 gallons of turpentine in 1908 against 15,572,700 gallons in 1907, and 1,932,114 barrels of rosin in 1908 against 1,774,370 barrels in 1907.

The production of more than 36,500,000 gallons of turpentine and more than 4,000,000 barrels of rosin, with a valuation of more than \$14,000,000 for the turpentine and nearly \$18,000,000 for the rosin, summarizes the output of the whole naval stores in-

dustry for 1908, according to the preliminary report of the United States Forest Service just completed. The study was provided for in a special appropriation of \$10,000 by Congress and the report contains the most complete and accurate statistics ever gathered for the naval stores industry in this country and covers the production for both 1907 and 1908, giving comparative figures for the two years.

Georgia, Alabama, Mississippi, Louisiana, North Carolina, South Carolina, and Texas follow Florida in the order named. Comparative report of the production by States is as follows:

States.	—1908—		—1907—	
	Turpentine Gallons.	Rosin Barrels.	Turpentine Gallons.	Rosin Barrels.
Florida	17,030,300	1,932,114	15,572,700	1,774,370
Georgia	10,247,800	1,203,059	10,119,500	1,178,575
Alabama	3,744,059	446,909	3,544,300	418,406
Mississippi	2,277,850	277,704	2,232,500	255,307
Louisiana	1,696,250	195,804	1,134,100	126,346
North Carolina	732,300	131,907	916,400	168,551
South Carolina	559,800	72,125	588,950	75,057
Texas	200,650	28,661	74,350	7,909
Total	36,589,000	4,288,283	34,180,800	3,999,321

While these figures show an increase of 2,408,200 gallons of turpentine and 288,962 barrels of rosin for 1908 over 1907, there was a marked decrease in the value of the produce for 1908 as compared with the preceding year. This was due to the great decrease in the prevailing prices for turpentine for 1908 and the slight decrease in the prevailing prices for rosin during the same year. The value of the product for the two years follow:

Turpentine, 1908, \$14,112,377.33; 1907, \$18,283,309.93; rosin, 1908, \$17,783,509.61; 1907, \$17,317,059.98; a difference in the value of the combined output of \$3,704,482.93 in favor of 1907.

The figures used in determining the value of turpentine and rosin for the two years are based on the market quotations at Savannah, the recognized naval stores market of the United States. The average price received for turpentine manufactured in 1908 was \$0.3857 per gallon, and in 1907 was \$0.5349 per gallon. The average price received for rosin in

1908 was \$4.14 per barrel and in 1907 was \$4.33 per barrel.

The number of operations for the two years were distributed among the eight States as follows:

States.	1908	1907
Alabama	192	185
Florida	633	595
Georgia	666	643
Louisiana	25	22
Mississippi	94	83
North Carolina	41	48
South Carolina	37	39
Texas	8	4

Total

1,696 1,629
The increase in production for 1908 over 1907 was due to more favorable weather and labor conditions than to increased operations. But few operators increased their operations, owing to the disorganized condition of the market at the time operations commenced. Figures upon which the report of production for the two years is based were secured by a system of correspondence and personal visits to the points of production by agents of the Forest Service.

TAKES HIS OWN LIFE WHILE OUT HUNTING

From Sunday's Daily Sun:

News reached this city late Friday night to the effect that Marion Zetrouer, a young man about sixteen years of age, had been shot near his home at Rochelle.

Investigation Saturday revealed the fact that the young man took his own life, using a single-barrel shotgun to perform the deed, but no cause could be ascribed for the act. He had left the house to go out hunting, so he informed his people, and when night came his brother went to look for him, he having failed to come back, and found him dead only a short distance from the house, his body still being warm.

Howard Beckham, on learning of the affair, empanelled a jury of inquest, viewed the remains and decided that the lad had come to his death by his own hands, the act being premeditated.

A single-barrel shotgun was all that he carried with him.

the left side of his face was all shot away indicates that he failed in his first attempt to kill himself, and the second shot, which completely blew his head off, indicated that the gun had been placed at close range to his right temple.

Friends of the family state that he had no cause to commit such an act, and they knew nothing of his intentions until his body was found. He was at liberty to go and come, and do generally as he pleased, but owing to sickness he had never been considered overly bright.

The funeral services were held at the home and the remains laid to rest in the family burying ground at Oak Ridge, near the home, Saturday afternoon.

The building commissioner of Jacksonville issued nineteen building permits between 8 a. m. and 5 p. m. Thursday, the cost of the structures

DR. CLINE MARRIED ONE WOMAN TWICE

And No Telling How Many of the Innocent Creatures
He Has Duped Once.

By reference to the following clipping more will be learned of Dr. A. E. Cline, who left this city a few nights since, having been caught at Lake Butler by one of his endorsers on a note and made to shell out the equivalent of the note before allowed to proceed further.

The Doctor has probably skipped this city with about \$50 in cash. Besides there is one of his notes out for \$150 endorsed by three citizens that will doubtless have to stand the loss.

While the indebtedness he had accumulated here amounted to several hundred dollars, in most cases it was for furnishings and other necessities, and as none of this has been taken away or sold the original owners will be able to claim everything, as the goods are always sold with a lease attachment.

The following article appeared in the columns of the local paper published at Statesboro, Ga.:

"By reference to a clipping from The Wadesboro (N. C.) Messenger and Intelligencer, which is reproduced in another column, it will be seen that our old-time fellow-citizen and friend, Dr. A. E. Cline, is once again able to fill some newspaper space.

"It seems that 'the Doc' is rather addicted to matrimony, having married one woman twice and married several others in various sections of the country, going first under one name and then another. Just how

many living wives this scoundrel has is hard to estimate. He seems slick enough to fool some young girl in every town he goes to, and so far has escaped the penitentiary, a place he will eventually land. Why he has escaped so far is one of the 'seven wonders.'

"The last marriage was pulled off at Gainesville, Fla., after he was compelled to skip the limits of North Carolina to escape an indictment. While here last spring he had a rather checkered career, swindled everybody that he was able to touch, and that was a good many. While here during the fall he came near getting some of what was coming to him. The clutches of the chaingang came near fastening on him, but unfortunately for the entire country he was able to escape.

"He got off light here, but there was a certain element of the white-livered variety who insisted he was a great martyr just before his demise.

The Groveland South Georgian printed a long-winded howl about the indignities heaped upon Dr. Cline by Sheriff Kendrick simply because he brought him here after desperate and expensive struggle to extradite him, and after he had made repeated attempts to break jail.

"The atmosphere around Gainesville has probably grown uncomfortably warm for 'the Doc' by this time and in all probability he has skipped out to newer fields and greener pastures."

How Tom Wynne Came to Kill Negro Near Bronson

Following is a clipping taken from The Bronson Times-Democrat concerning the killing of the negro near there:

"T. W. Wynne, manager of the sawmill of J. O. McLaurin & Co., about eight miles north of Bronson, last Thursday shot and killed Ed Green, a negro teamster in the employ of Sam Day, at the latter's wood camp.

"Mr. Wynne gave himself up and was given a preliminary hearing Saturday afternoon before Judge Friedman, State Attorney J. M. Rivers being present in behalf of the State.

"Sam Day, employer of the negro who was killed, was the first witness for the State. Mr. Day testified that as he and Mr. Wynne came up to the car where Ed Green was coming up

with a load of wood, Green, who was on a mule, pulled a pistol and pointed it at Mr. Wynne. Before he could fire Mr. Wynne, who had a shotgun, shot the negro to save his own life. Green was known to have a pistol, and it is thought that when he saw Mr. Wynne with a gun he expected to be disarmed, and he put up a fight which, but for his quickness, would have cost Mr. Wynne his life.

"Two negroes who saw the affair also testified for the State, each corroborating Mr. Day's testimony. Mr. Wynne was discharged, the State attorney saying there was no ground upon which to hold him.

"Mr. Wynne has many friends in Levy and Alachua counties who will be glad to learn the outcome of the case."

Aged Negro Brutally Beaten and Almost Cremated

SELMA, Ala., March 5.—News reached Selma today that Wednesday night near Summerfield, Mose Coleman, an aged negro who lives in that community, was decoyed away from home by two white men and beaten severely.

When he called his son to help him, one of the white men shot the son, causing a flesh wound in the abdomen.

The young men were John Rutledge and Bertram Talt. It is reported.

A few weeks ago the men, it is claimed, cut a bee tree belonging to the negro and he reported it to Mr. Campbell, justice of the peace at Summerfield. Having been reported to the authorities by the negro, greatly incensed the young men, it is claimed, and hence they proceeded to his home and told him if he would go with them over to Mr. Campbell's

place, they would "settle" with him for the tree.

It is said, when they had promised to reimburse the old man, he at once agreed to accompany them to the place designated by Coleman's home.

It is charged that the young men set upon their aged victim and beat him unmercifully. After they assaulted and bruised him, they placed dry pine straw around his body and set it on fire.

Cries brought his son to his assistance, and when he was approaching one of the young men shot the boy, causing a painful flesh wound.

A physician was kept busy all night trying to save his life. It is said that an operation will be necessary to save his life. When help reached him he was insensible.

A DELIGHTFUL SURPRISE.

Kirby Smith Chapter Had Most Interesting Meeting and Reception.

From Friday's Daily Sun:

Thursday was the regular meeting day of Kirby Smith Chapter, U. D. C., for the transaction of monthly business, and as usual a large number laid aside other duties to attend. Few, if any of the members, however, had any idea of what was in store for them until they arrived at the home of the president, Mrs. H. H. McCreary, where the meeting was called, and were accorded a reception in honor of Mrs. Anita Spence, a visiting member of the New York Chapter, of which Mrs. Judge Parker is president. Mrs. Spence is the guest of Mrs. J. F. McKinstry, Jr., and bears a most cordial letter of introduction from Mrs. Parker commending her to the Daughters of the Confederacy wherever she may be. Kirby Smith Chapter never fails to make visitors feel at home, and on this occasion the ladies fairly tried to outdo each other in making the afternoon one long to be remembered.

The lower floor of the home, which is elegantly arranged for entertaining on just such occasions, was thrown into virtually one room, and was handsomely decorated with the colors of the chapter and tiny Confederate flags. An impromptu musical and literary program was carried out. Mrs. McKinstry and Miss Eva Ward treating the assemblage to most beautifully rendered vocal solos, while Mrs. Spence delighted all with two recitations. She is an excellent reader, and all were delighted to again hear her. Gainesville's favorite musician, Miss Ida Burklim, presided at the piano, and added much to the evening's pleasure. After the exercises the guests were invited into the dining-room, where delightful refreshments were served.

It was without doubt one of the most interesting and delightful meetings the chapter has ever held, and the hostess was congratulated by all for the clever manner in which she had surprised and entertained them.

The guests departed to the strains of Dixie, played by Miss Burklim.

Douglass Talks of Killing at the Heights in August

Thomas Douglass, the negro arrested and brought from Quincy on Friday by Sheriff Ramsey on two charges, assault with intent to kill and also murder, was seen at the jail by a Sun reporter and talked freely of the killing.

He claims he is entirely innocent of the charge of murder, but he left the scene owing to jealousy existing against him by the negroes of the place.

"On the night of the killing," said Douglass, "we were all at a festival given near Orange Heights, and the majority were more or less under the influence of whiskey, in fact, all were drunk, and as there was so much shooting going on around there it would be hard to tell just who fired the shot which killed the man instantly.

"Shortly after the man fell someone in the crowd hollered out that

'Douglass killed him,' and knowing the amount of animosity that the negroes had against me I decided to beat it from Orange Heights until the affair was cleared up.

"I first visited Savannah, then later came back as far as Waycross, where I worked for some time, or until December 1, then coming down as far as Highland, when I wrote for my wife to come to me. Some of the Orange Heights people, learning of my whereabouts, preceded her and while I was waiting at the depot to meet her I saw them alight from the train, and I made for West Florida, working finally at Quincy until my arrest."

Douglass stated that he intended to secure a lawyer and was positive that he would come clear when the case was called for trial, for the negro was shot with a shotgun and he knew of no such weapon being anywhere around the festival.

DR. CLINE MAKES A HASTY "GET-A-WAY"

CLIPPING FROM NORTH CAROLINA
PAPER UPSETS HIM.

It is Alleged He Has Another Living
Wife in Georgia, Which is
Being Investigated.

From Friday's Daily Sun:

Dr. A. E. Cline, the veterinary
surgeon who has been making Gaines-
ville his home for the past six or
eight weeks, suddenly took his de-
parture on Wednesday night, presum-
ably for points in North Carolina.

The cause of the Doctor's sudden
flight from Gainesville can best be
judged by the following, which was clip-
ped from The Messenger-Intelligencer,
published in Wadesboro, N. C.:

"Perhaps no man who amounted to
as little as Dr. A. E. Cline, the veteri-
narian who located here several
months ago, ever succeeded in getting
himself talked about so much in such
a short time as did that worthy. It
will be remembered that Cline came
here from Statesboro, Ga., nearly
twelve months ago and opened a
veterinary office here.

"He had not been in Wadesboro
long when he was arrested on war-
rants from Statesboro charging him
with carrying concealed weapons and
defrauding. After a long fight he
was finally extradited to Georgia and
tried, but was acquitted of all the
charges against him except that of
carrying concealed weapons. He paid
the fine of the court in this case and
returned to Wadesboro in high feath-
er. He again opened an office and
tried to marry one of the best young
ladies of the county. He failed in this
because it was discovered that he had
a living wife in Georgia from whom, it
was known, he had never been di-
vorced.

"While Cline was in jail here during
his fight against being extradited to
Georgia he, in some manner, got hold
of several saws and attempted to saw
his way out of jail. In this State this
is an indictable offense, and the grand
jury, at the January term of criminal
court, found a true bill against him
for attempting to break jail. Cline,
hearing of this, fled the State before
he could be arrested. This was the
last heard of him here until the news
of his marriage, contained in a spe-
cial dispatch of February 17th from
Gainesville, Fla., to The Jacksonville
(Fla.) Times-Union was forwarded to
The M. & L. by a friend living in that
section."

Before making his departure Dr.
Cline told several of his friends that
he intended returning to the city, but
was going with his wife to North
Carolina, where he intended getting
the proper evidence to completely ex-
onerate him and return here to make
this city his home.

He left a larger part of his effects
here, and among some of his personal
mail a letter was seen which came
from the sheriff at Wadesboro stating
that everything there had been cleared
against him and congratulated him
upon his marriage and the fact that
he was now living the simple life and
trying to improve himself generally.

The Doctor took a private convey-
ance from this city and had his young
wife follow him on the morning train,
they meeting again at Hague, where
the Doctor boarded the train.

In reference to the living wife in
Georgia, the matter is now being in-
vestigated by parties in this city, and
the facts will be known within the
next few days.

Dr. Cline had made many friends
here and it is to be hoped that he
will return prepared to show a clean
record, so far as the second wife is
concerned, at least.

A Religious Author's Statement.

Rev. Joseph H. Fesperman, Salis-
bury, N. C., who is the author of sev-
eral books, writes: "For several years
I was afflicted with kidney trouble and
last winter I was suddenly stricken
with a severe pain in my kidneys and
was confined to bed eight days unable
to get up without assistance. My
urine contained a thick white sedi-
ment and I passed same frequently
day and night. I commenced taking
Foley's Kidney Remedy, and the pain
gradually abated and finally ceased
and my urine became normal. I cheer-
fully recommend Foley's Kidney Rem-

HAPPY WOMEN

Plenty of Them in Gainesville, and
Good Reason for It.

Wouldn't any woman be happy,
After years of backache suffering,
Days of misery, nights of unrest,
The distress of urinary troubles,
She finds relief and cure?
No reason why any Gainesville

reader
Should suffer in the face of evi-
dence like this:

Mrs. John Smith, 307 E. Magnolia
street, Gainesville, Fla., says: "I suf-
fered from a weak back and severe
pains in my sides for a long time. I
could not stoop without experiencing
sharp twinges through my body and
if I did so it was difficult to regain an
erect position. I was also subject to
headaches and at times was very
nervous. When I saw Doan's Kidney
Pills so highly recommended for
these troubles, I procured a box and
began their use. In a short time I
felt much better. The pains lost their
severity and I gained in strength.
I consider Doan's Kidney Pills an ex-
cellent remedy and am pleased to
recommend them."

FRIDAY MORNING FIRE

Occurred in Sawdust Reserve of Coffin
Factory Plant.

At 9:55 Friday morning the fire de-
partment was summoned to South
Gainesville, where it was found that
the large receiving vat for sawdust
at the Coffin Factory was on fire and
burning fiercely on the inside.

Before the arrival of the department
the employees of the mill had their
own pumps at work and two nice
streams were playing upon the burn-
ing sawdust in the reservoir, and it
was found unnecessary to turn on
water from the city hydrants.

The damage will amount to very lit-
tle practically, the largest loss being
the time of the men and shutting
down of the plant while the men
were at work on the flames.

For Diseases of the Skin.

Nearly all diseases of the skin such
as eczema, tetter, salt rheum and bar-
bers' itch, are characterized by an in-
tense itching and smarting, which of-
ten makes life a burden and disturbs
sleep and rest. Quick relief may be
had by applying Chamberlain's Salve.
It allays the itching and smarting al-
most instantly. Many cases have
been cured by its use. For sale by

HENRY STANLEY WAS SERIOUSLY INJURED

SHOULDER, ARM AND LEG WERE
BROKEN IN RUNAWAY.

The Horse Became Unmanageable and
Threw Rider on an Old Stump,
With Above Results.

Henry Stanley of Paradise, who
works with one of the companies do-
ing business there, was seriously in-
jured on Thursday by being thrown
from a horse while he was out on his
official business.

In being thrown from the animal he
landed on an old stump, with serious
results. His leg was broken, also his
shoulder and arm, and in all he is
generally bruised up, although it is
not thought that he is injured inter-
nally.

Dr. J. C. Bishop of Alachua was
called to the patient and did every-
thing possible for his comfort while
setting the broken bones, but the
young man is in rather a serious con-
dition.

Prof. H. A. Howell, of Havana, Cuba,
Recommends Chamberlain's
Cough Remedy.

"As long ago as I can remember my
mother was a faithful user and friend
of Chamberlain's Cough Remedy, but
never in my life have I realized its
true value until now," writes Prof. H.
A. Howell, of Howell's American
School, Havana, Cuba. "On the night
of February 3rd our baby was taken
sick with a very severe cold; the next
day was worse and the following night
his condition was desperate. He could
not lie down and it was necessary to
have him in the arms every moment.
Even then his breathing was difficult.
I did not think he would live until
morning. At last I thought of my
mother's remedy, Chamberlain's Cough
Remedy, which we gave, and it afford-
ed prompt relief, and now three days
later, he has fully recovered. Under
the circumstances I would not hesitate
a moment in saying that Chamber-
lain's Cough Remedy, and that only,
saved the life of our dear little boy."

Death of Mrs. Barron.

The sad news was received Thurs-
day night of the death of Mrs. J. F.
Barron, which occurred at Evinston
in the afternoon, after a long and pain-
ful illness, she having been confined
to her bed for sometime by paralysis.
Deceased was the wife of Postmaster
Barron, and was about 65 years old.
She was a devout member of the Pres-
byterian Church and loved by all for
her many charitable acts and ex-
emplary Christian spirit. The be-
reaved husband has the sympathy of
the entire community.

Commissioner McLin's Report as to Convicts

The tenth biennial report of the Commissioner of Agriculture of Florida for the period beginning January 1, 1907, and ending December 31, 1908, has been completed, and a copy of it received by The Sun. It is a book of 161 pages, and contains much valuable information. From it is learned that during the year 1908, 1,282 prisoners were on hand January 1st, and 446 committed during the year; 312 were discharged and the enormous large number of 127 were pardoned. Also that 54 escaped, 27 of whom were recaptured, and 26 died, and 4 became insane. On January 1,

1909, there were in the camps, 1,232 prisoners. There were no white females, but 75 colored females, 356 colored males and 75 white males committed last year. Duval county sent up the largest number, 51; St. Johns county sent up the next largest batch, 27; Lee and Sumter counties sent none; 54 were sentenced for life terms.

The compilation is a credit to Commissioner McLin, as it shows much careful information, valuable to every taxpayer in Florida.

LOCK-JAW CAUSE OF CAMPBELL'S DEATH

DIED AT HOSPITAL AFTER DAYS
OF SUFFERING.

Was Young Man Well Known in City.
Engaged in Farming at
Time of Death.

Arch Campbell, a young man about 25 years of age, died at the hospital late Friday night after having suffered for the past several days of lock jaw, blood poison and convulsions.

The beginning of the young man's troubles was when he stuck a rusty nail in his foot several days since—about two weeks ago—and he developed lock jaw. Nothing was thought of the matter seriously for several days, but finally the attention of a physician was called and the patient removed to the hospital in this city.

From lock jaw he went into convulsions and for many days he has been unable to swallow, but hope was not given up until blood poison finally set in.

He was well known here, having often worked with S. H. Dempsey, and at the time of his death was engaged in farming with his father about two miles southeast of the city on the Hampton property.

Besides his parents he leaves a brother and sister to mourn his demise, and friends of the family extend to them their sympathy in their sad hour of grief.

The funeral services of the unfortunate young man were held Saturday afternoon at 3:30 o'clock at the cemetery, a large number of friends from the city being present.

Dr. T. F. Thomas had charge of the remains as undertaker.

WORKING FOR MEETING.

Gainesville Woodmen Starting Early for Big Convention.

Gainesville Woodmen, through their delegates, Dr. J. M. Dell and J. B. Brooks, will make a special effort to secure the next meeting of the Head Camp V to meet in Gainesville in 1911, and have had printed several thousand cards of a novel nature to further their efforts.

They are elected delegates to the next meeting and while there will use their every effort to push Gainesville with these cards, which are neatly arranged with a match placed horizontally across the corner, containing the words, "Can You Match Me?" The card bears the following inscription:

"Gainesville and Alachua Camp, No. 5, Woodmen of the World, cordially invite Head Camp V to meet in Gainesville in 1911. Gainesville is recognized as the 'Convention City' of the State. Has an auditorium with a seating capacity of 2,500, good hotels, and every citizen will give a warm welcome to all sovereigns."

DON'T BE MISLED.

The retail druggists of this country, as a class, are noted for their high standard of intelligence and honorable dealing, but it is a well-known fact that occasionally you will find one who will try to sell you something else when you call for a remedy of established reputation. He forgets that your health is more important than his pocketbook.

For example, when you ask for Dr. Kilmer's Swamp-Root, the great Kidney, Liver and Bladder Remedy, don't let any druggist, drug clerk or storekeeper persuade you into buying something else in its place. Every time he succeeds in selling you a worthless substitute he makes more profit, but you are humbugged at the expense of your health.

For many years we have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root. From the very beginning, the proprietors had so much confidence in it that they invited everyone to send for a free sample bottle so that people could judge of its great curative value in even the most distressing cases of kidney, liver and bladder troubles.

On another page of this paper you will find a few of the letters, prompted by feelings of heartfelt gratitude, that are constantly coming to Dr. Kilmer & Company. No one can doubt such sincere and honest testimony.

Swamp-Root is prepared only by Dr. Kilmer & Co. Laboratories, Binghamton, N. Y.—Don't experiment—If you need a medicine you should have the best.

Returns From St. Johns.

J. R. Emerson, who is now traveling in the interest of road machinery, has returned from St. Johns county, where he has been for the past several days. He states that that part of Florida is very active and he noted with pleasure that the country was full of tourists. Good roads in that section is doubtless what has drawn them, and he says that more will be built the coming summer.

Card of Thanks.

To all those friends who displayed towards us such tender consideration and kindly sympathy in the illness and death of our beloved wife and mother we desire to express our heartfelt thanks, and in this way assure each one of them of our deepest appreciation.

THE TEST THAT TELLS.

Dothan, Ala., Jan. 21, 1909.
Dr. Kilmer & Co., Binghamton, N. Y.

Gentlemen: About one year ago two of my children suffered badly from weak kidneys and diabetes; their urine was very bad and they would have severe spells of dizziness, and were all run down in health. I was just about discouraged. I tried several remedies and finally a doctor, but they did not seem to improve. I knew of a friend who was taking Swamp-Root for kidney trouble with good results, and I decided to get some for the children. I noticed there was some improvement after they had taken two large bottles, and continued to give it to them until they had taken a half dozen bottles and were well on the road to recovery. I think Swamp-Root has done more for my children than any other medicine I have tried and I recommend it to one having children who suffer as mine did.

A Sworn Certificate of Purity With Every Bottle--See Inside Wrapper

There are many glaring instances of the ease with which some business men, supposedly shrewd and well-balanced, are duped by designing sharpers. One of the latest and most astounding is that of Sir Julius Wern-

her, who paid Lemoine, the French "diamond maker," \$300,000 for the secret of his formula and who, as the result of the arrest and trial of Lemoine got but \$2,000 damages. The formula by which the financier was

victimised was "take sugar, raise it to a sufficient temperature, and you will obtain diamonds." It is evident that knaves will continue to flourish so long as such easy victims can be found.

THE VALUE OF A REMEDY IS PROVEN BY ITS CURES.

Elkwood, Ala., Dec. 14, 1908.

Dr. Kilmer & Co., Binghamton, N. Y.

Dear Sirs: I have derived such great benefit from the use of your remedy, Swamp-Root, that I believe it to be most important for the public to know its worth. For the past ten years I have been the most miserable of men. Did not know what the trouble was but had to urinate very frequently both day and night; was puffed up generally. Could not sleep more than a couple of hours at a time, was greatly distressed after eating a meal and was about worn out. I had tried nearly everything I could see advertised and hear of, without helping me to any great extent, until finally in October last at Ripon, Wis., I purchased a one-dollar bottle of Swamp-Root and commenced taking it according to directions and I followed that with another bottle and experienced such great relief and benefit from same that I purchased five dollars worth at Huntsville, Ala., and continued its use and am now taking it, but in smaller doses and twice a day in place of four times a day, and believe by the time present supply is used up I will be entirely well. I am feeling better now than for ten years past. Can eat and sleep first-class, in fact, I am feeling so good that I cannot resist telling you about it. You are at liberty to publish this testimonial should you wish. Very respectfully,
THOS. STALLARD, U. S. A., Retired,
Box 7, R. R. No. 2, Elkwood, Ala.

A CLERGYMAN.

New Roads, La., Jan. 22, 1909
Dr. Kilmer & Co., Binghamton, N. Y.

Dear Sirs: I write today to the public that your Swamp-Root cured me of kidney trouble. I was almost past going; having spasmodic spells with my kidneys that were breaking down my constitution. The best medical aid was employed and they pronounced my trouble as alkali in the kidneys, but were unable to do me any permanent good.

I took four bottles of Swamp-Root and became a well man. This was six years ago and I have had no trace of the trouble. Yours for suffering men,
REV. J. R. TAYLOR,
Pastor Baptist Church, New Roads, La.

MAIL CARRIER'S EXPERIENCE.

Blountsville, Tenn.
I have been a rural letter carrier for over five years. Some two years ago was taken with severe pains in my back. I used medicine from my family physician for several months without any benefit. A friend, Mr. J. D. Nelson, advised me to try your Swamp-Root, but I had no faith in it. I continued to grow worse and at last decided to try this remedy and bought of Long Bros. a fifty-cent bottle which gave me great relief. I then bought two one-dollar bottles, which I can truthfully say have completely cured me.

Had it not been for Swamp-Root, I would have been compelled to quit the rural free delivery service. I advise all mail carriers who get pains in their back that Swamp-Root will cure them.

I was so bad that very often my wife would have to help me to arise.

M. B. HENDRICKSON,
Rural Letter Carrier, Route No. 2.

A CONTRACTOR.

Donalsonville, Ga., Jan. 20, 1909
Dr. Kilmer & Co., Binghamton, N. Y.

Gentlemen: About four years ago I suffered from kidney trouble and rheumatism in my hips. The pain across my back became so severe that I could hardly straighten up and could not walk without dragging my feet. I would urinate frequently and would have to rise two or three times during the night, causing me to suffer from loss of sleep. And with the pain I was all run down and began to lose flesh. I saw Swamp-Root advertised and bought one bottle to try it. After taking it I felt better and could sleep all right at night. I continued to take it until I had taken four large bottles. I was entirely free from any pain in the back and began to gain in weight. I always recommend Swamp-Root to my friends as I think the cure in my case remarkable.

Yours very truly,
M. H. HICKSON,
Donalsonville, Ga.

BENEFICIAL IN SEVERAL CASES.

Edgefield, Tenn.

Dr. Kilmer & Co., Binghamton, N. Y.
Gentlemen: I hardly know how to express my appreciation for the good your Swamp-Root has done me. I had been greatly troubled with my kidneys, and with pain in the back; also with what the doctors termed inflammation of the neck of the bladder. Sometimes my back would get in such shape that I was almost helpless. I had tried several doctors and medicines to no good effect, and finally I noticed in some paper where Dr. Kilmer proposed to send a sample bottle of his kidney medicine, Swamp-Root, free by mail. I sent at once and received promptly a sample bottle. After taking it I found it did me good. I then purchased two bottles from our merchant, Mr. W. J. Elizer. After taking the medicine I felt like a new man, and each day rode five miles to teach school. You are at liberty to use this letter, or refer anyone to me, as I will always be glad to tell them what a wonderful remedy this Swamp-Root is. Mr. James Ivens, of Sandersville, Tenn., is taking it with good results. Very truly yours,
D. A. MONTGOMERY,
Member Tennessee Legislature,
Rural Route No. 24, Edgefield, Tenn.

RESULTS IT HAS PROVED.

Dothan, Ala., Jan. 21, 1909.
Dr. Kilmer & Co., Binghamton, N. Y.

Dear Sirs: Have been suffering more or less from kidney trouble for the last five years and was induced to try your Swamp-Root. Am happy to say, or give you testimonial, that it has cured me. I as a traveling salesman for Messrs. Colgate & Co., New York, and am always traveling on the road. Drinking the different waters affected my kidneys.

Yours respectfully,
SAMUEL WOLF.

A PROMINENT MASON.

Jackson, Tenn.
According to my experience, I do not consider there is anything to equal Swamp-Root for kidney affection.

Twice it relieved me when I was completely helpless.

The last time I was traveling in Texas, when my kidneys became affected, and for ten days I suffered excruciating pains, accompanied with severe chills. Several years previous, having been relieved of a similar attack, I naturally sought relief as before from Swamp-Root.

After using four of the large-size bottles, I was completely restored and went on my way rejoicing and praising Swamp-Root. This was three years ago and I have had no indication of a return of the affliction.

FULLY SATISFIED.

Waycross, Ga., Jan. 5, 1909.
Dr. Kilmer & Co., Binghamton, N. Y.

Dear Sirs: During last October I suffered from my kidneys.

I consulted my physician, who prescribed for me, but his treatment did not benefit me. After reading some Swamp-Root literature, I decided to give it a trial. After taking a few doses, I felt somewhat relieved, and after two one-dollar bottles had been taken, I had no pain and was completely cured. I have not had the slightest pain in my back or hips since. From my own experience, I can cheerfully recommend Swamp-Root to anyone suffering from kidney trouble.

Yours very truly,
SIMON MARTIN.

GAINESVILLE

CURRENT COMMENT.

The Birmingham News says: "Another Sunday lynching was averted in an Iowa town by the vigilance of the authorities in hustling the negro prisoner out of the community. It seems that they don't like a negro in Iowa, either, when he gets to be a notorious offender."

The Springfield (Mass.) Republican says: "Even though the sundry civil appropriation bill carries a Presidential salary item of \$75,000, Mr. Taft will be little or no better provided for in this respect than Mr. Roosevelt has been for a year or two. In this time the President has had at his disposal \$25,000 a year, additional to his salary of \$50,000, for use in part or whole, according to his discretion, for traveling expenses. Now the \$25,000 travel fund is merged into the salary from which the President must meet his transportation costs."

The Washington Post says: "By special invitation Mr. E. H. Harriman is to address the Legislature of the State of Texas. Here will be an occasion opportune with great import; filled with possibilities of reconciliation, and a chance for the assimilation of reason. The very real octopus is to speak to the most inveterate of the octopus chasers en masse. Will they listen to this wizard of the market place and give heed to his words of facts and practicability? or will they be deaf to the tale of progress, and whirl their brains with fads of legislation and fancies of wrongs never committed?"

The Charleston News and Courier says: "Harry St. George Tucker, one of the ablest men in Virginia, is a candidate for Governor of that State at the Democratic primaries, and he has the courage of his convictions. The other day he said flatly that if he should be elected Governor of Virginia and the Legislature should pass a State-wide prohibition bill during the term of his office, he would feel it to be his duty to veto it. We do not know what effect so plain and explicit and honest a statement will have upon the Virginia electorate, but it is better that Mr. Tucker should be right than that he should be Governor."

PLEA FOR THE SEMINOLES.

Making a plea for the Indians of the Everglades of Florida—the people who yet live in spite of the advancing civilization of the white man in the fastnesses of this virtually unexplored territory—Rev. Irenaeus Trout recently accomplished good work for his cause, says The Savannah Press.

Mr. Trout recounted the manner of life in the Everglades of the Seminoles, among whom he is working in connection with Dr. Godden, an English physician who has lived among them for a number of years. They make their home at a settlement owned by the Episcopal Church. This is a reservation of 650 acres, and as yet it is but little developed. The church has been limited in its means for the work, and while the two men have accomplished a great deal in the way of gaining the confidence of the Indians, and getting them interested in the life of the white man, progress has been hampered because of a lack of funds to turn the land to account.

This tract is to be converted into a farm to be cultivated by the Indians on shares by way of teaching them to farm. The Rev. Mr. Trout points out the fact that it will not be very long until the Indians will be compelled to give up hunting and their wild way of living, because the Everglades are being bought up by sugar syndicates and the State is carrying on the work of reclamation.

The remnant of the tribe remaining in the Everglades has firmly refused aid from the Government or to live on a reservation, and the plea that the missionary makes is that it is incumbent upon the white man to educate them into ways of usefulness, so that they may become self-supporting when they are finally forced to leave the 'glades.

No offering was made, but Mr. Trout received the pledges of several subscriptions, and at the different churches he has arranged for the receipt of subscriptions.

It is reported that the "Head Hunters" have again gone on the war path in the Philippines. They need not think that President Taft will be more lenient with them than his predecessor, and it is probable that they will lose their own heads in the hunt for the heads of others.

One Doctor—Only One

No sense in running from one doctor to another! Select the best one, then stand by him. No sense either in trying this thing, that thing, for your cough. Carefully, deliberately select the best cough medicine, then take it. Stick to it. Ask your doctor about Ayer's Cherry Pectoral for throat and lung troubles. Sold for nearly seventy years. No alcohol in this cough medicine. J. C. Ayer & Co., Lowell, Mass.

Why try this thing, that thing, for your constipation? Why not stick to the good old reliable family laxative—Ayer's Pills? Ask your doctor if he approves this advice.

THE PISTOL TOTO.

The following article on the evil of carrying concealed weapons is taken from the February number of Uncle Remus—the Home Magazine—and is from the pen of Don Marquis:

"There is too much 'pistol totting' and too much palliation of 'pistol totting' all through the South. The mere possession of a deadly concealed weapon has a certain psychological effect upon the most conservative of temperaments. Upon even a stranger the 'feel' of a pistol is likely to breed the desire to use the pistol.

"In most human beings, with average advantages and average education, this desire to feel that one can kill if one chooses—this cheap love of the spectacular—passes away rather early in life; or is reserved for a more legitimate and recognized exercise on the side of law and order, or in war time, or in some dangerous calling. But the tough nature does not care whether it is exercised on the 'side of recognized authority or not, it is simply its exercise that such a nature desires. He wants to see himself in a heroic attitude.

"I have no doubt that many of the night riders went into the thing just because it gave them an opportunity to ride around the country at night, in a silly masquerade with guns in their hands, and in their egotistic hearts that satisfying feeling that they belonged to a band that runs things.

"If the young men in the rural communities, and even in some of the larger towns throughout the South, cannot be convinced that habitually to carry a pistol—unless upon occasions when one is really needed—is a foolish thing to do, they can at least be convinced that it is an expensive habit. The laws against carrying concealed weapons are good enough, all that is needed is their general enforcement by the proper authorities. "Duelling has been frowned on in this country for several decades, but it would be better than such street killings as that of Carmack, in Nashville, or that of Gonzales, in Columbia, a few years ago. In a duel each participant at least has something like an equal chance, but when the 'pistol totter' goes after his man it is not with the idea of giving him a chance for his life.

"If men of influence and a certain degree of prominence, like the Coopers in Tennessee, and the Tillmans of South Carolina, 'tote' deadly weapons with which to settle their personal difficulties, if these men of a class who are supposed to have had certain educational advantages are 'pistol totters,' how then are the inhabitants of the Reelfoot Lake district, the Kentucky and Tennessee and Georgia mountaineers, and the youths of the narrow inland villages all throughout the South, who are lacking in opportunities and position, to be taught the lesson that 'pistol totting' is a vain, foolish, criminal and contemptible habit?"

The time record for crossing the Atlantic has again been lowered, for the Mauretania has just beaten all previous records by one hour and 46 minutes. The way in which the time has been lowered in the past few years from seven days to 4 days, 17 hours, 50 minutes is a great triumph for marine architecture and engineering. The shortening of time will be welcomed by all who dread ocean voyages but who yet want to travel in Europe and other lands, and it will make far closer intercourse and increased friendship between the people of two continents.

The jurors in the Carmack murder case at Nashville are growing restless, and have requested Judge Hart to hurry things along. They say it is crop-planting time, and as they are all farmers their presence is greatly needed at home. It is not likely that a minority, whether for conviction or acquittal, will hold out long under such circumstances, and the side that has the best staying qualities is going to get the verdict in this case.

PHILANTHROPIC JUDGE GARY.

When Judge Gary, the head of the United States Steel Corporation, appeared before the Committee of Ways and Means, he declared that his company does not care for maintaining the present tariff on steel, and can very well afford to get along without it, but tariff reduction will drive the smaller steel concerns to the wall. It was only philanthropy, so he tried to make it appear, that induced him to plead for the life of the small concerns.

Now the same Judge Gary has started a trade war, of which it is thought will bring ruin to some of the small companies. Does the judge contemplate coming to the rescue of these small firms when they are found to be crippled and commit another act of philanthropy by gobbling them up for the steel trust, as he has done in the case of the Tennessee Coal & Iron Co.? Does he plan a still bigger trust?

Col. Bryan now talks as if he would again like to run for President. Really, we think it is about time for him to practice riding his trick mule and give the Democratic party a rest. He will not again have the Solid South back of him either in convention or at the polls. The immense vote Taft received in Georgia at the last election showed that the delegates from that State represented their constituents in opposing Bryan for the nomination. He no doubt received as many, if not more electoral votes than any other Democratic candidate would have received at the last election, but the people who compose the masses of the party will not again blindly follow his leadership, and he may as well make up his mind that he will not be President of the United States. He would undoubtedly make a good chief magistrate of the nation, but a majority of the people are afraid to trust him in that high office.

Alachua county has several miles of hard surface roads which are a credit to the people of this section, but we need more of them. Two hundred miles of hard roads in this county would do more than anything else to enhance the value of farm lands and attract new settlers. We need more people to cultivate our waste lands, and the surest way of attracting them here is to construct hard roads. Let's get busy along this line.

The temperance people want a law passed prohibiting the shipment of liquor from wet counties to dry territory. In our humble opinion this would result in many of the counties that are now dry voting back the saloon, which few of us want in Alachua county. If the prohibition amendment is submitted to the people the temperance people had better let the other proposition alone until after the next general election.

Those aspirants for Frank Clark's seat in Congress may as well make up their minds to wait a few years. The people of the second district are going to keep him in Congress just about as long as he desires to stay there. He is too able a representative and true friend to the masses for the people to displace with a man who will have to demonstrate his ability to fill his shoes.

The Anti-Saloon League is now conducting the campaign for State-wide prohibition from headquarters in Tallahassee. While the temperance people are active it must not be taken for granted that the advocates of local option will let them have everything their own way without a hard fight.

The people of Florida are thankful that the extreme cold weather which has held the North in its grasp for the past few days did not reach this section. Freezing temperature at this time would prove very disastrous to the fruit and truck growers.

THE BUSH & SAFFORD PIANO CONTEST

BASEBALL.

First Game of the Season Yesterday on University Diamond.

From Saturday's Daily Sun:

The first game of baseball this season was played yesterday afternoon on the University diamond between the two class rivals, the Sophomores and Freshmen, in which the Freshmen were victorious by the score of 14 to 10.

There were very few enthusiasts who witnessed the game, which was a lively one from beginning to end.

Both teams played exceptionally good ball, and all may be called amateur stars, especially Vidal, who caught a ball in right field.

At first it seemed as if the Sophs. would be victorious, but the Freshies, on seeing this, got down to business and brought the score up to 14 to 10.

The Sophs. had the advantage from the first, they having been practicing for this great game, but the Freshies proved themselves the best players. The line-up was as follows:

PRODUCING FERTILIZER ON THE FARM

By JOHN M. SCOTT

Florida Agricultural Experiment Station

Doubtless the farmers of Florida use more fertilizer per capita than those of any other State in the Union. It is also probably true that 90 per cent, or more, of the fertilizers which are used are commercial brands. With a change in the methods of farming from the growing of only one crop to a variety of crops in rotation, we can produce at home all of the ammonia we now buy in our fertilizers, and in that way save about half the money spent for fertilizer.

Increased Cost of Crop Production.

Until recently most of the farmers of northern and central Florida have depended for their income almost entirely on one crop—cotton. But conditions have forced many to change. The price of land has increased, and the cost of labor has also advanced nearly 50 per cent. The cost of producing a bale of cotton has increased in the same proportion, but the price received for the bale of cotton has remained nearly the same. Therefore the farmer must study and investigate, and if possible find some means whereby he may reduce the cost of production. What is true of cotton is also true of the cost of producing other farm crops.

The heaviest expenses in the production of a crop are the fertilizer and the labor. We can reduce the cost of cultivation about 50 per cent. by using improved farm implements. Therefore, if we can save 50 per cent. in fertilizer and 50 per cent. in cultivation we will greatly reduce the cost of producing our crops.

How Fertilizer May Be Saved.

Fertilizer may be produced on the farm in two ways. First, by growing legumes, such as velvet beans, cowpeas, and beggarweed. These crops have the power to get ammonia from the atmosphere. Therefore by growing velvet beans, cowpeas and beggarweed we can increase the ammonia content of the soil. This is not the case with corn and cotton; on the contrary, ammonia is taken from the soil by them. When velvet beans are grown, and the vines left on the ground to be plowed under during the following winter, they will add ammonia to each acre equal to an application of \$20 worth of cottonseed meal. An acre of cowpeas will produce a good crop of hay, and after this has been removed, the leaves that break off and remain in the field on the ground, and the roots, will add ammonia to the soil equal to an application of 400 pounds of cottonseed meal. When such crop rotation is practiced the fertility of the soil can be increased; while with the old method of continual cropping in cotton or corn, the soil is sooner or later depleted of available ammonia, phosphoric acid or potash, and the crop depends almost wholly on purchased fertilizer.

Second, by feeding the crops produced on the farm to live stock, either beef or dairy cattle, saving the manure produced, and returning it to the field. A good cow or steer will in a year produce from six to seven tons of manure. The quality of the manure will depend entirely upon the quality of the feed. If we give feeds rich in ammonia, the manure produced will be rich in ammonia. It has been found that the animal body retains only about one-fifth of the ammonia in the feed; that is, for every hundred pounds of ammonia fed to an animal eighty pounds are excreted. Therefore by growing such crops as velvet beans, cowpeas and beggarweed, and feeding them to live stock on the farm, we can produce large quantities of manure rich in ammonia. Hence by the growing of these crops, feeding them to live stock, and returning the manure to the fields, we can in a few years increase the fertility of our lands so that we will need to buy only potash and phosphoric acid—the cheap elements in commercial fertilizer.

When it is necessary to buy ammonia it should be purchased in the form of cottonseed meal and fed to animals, and the manure produced used as a fertilizer. By using cottonseed meal in this way we get a double value from it. First its value as a milk and meat producer, and second, its fertilizing value. By following this method, instead of having to purchase large quantities of ammonia, potash and phosphoric acid in chemical fertilizers, good crops can be grown with no purchased ammonia, and less potash than before. The most expensive element in the fertilizer—ammonia—would be obtained from the air, or as a by-product of the feed.

Every general farmer ought to arrange his crop rotation so that it would not be necessary for him to purchase any ammonia as fertilizer.

TENDERED LINEN SHOWER.

Miss Sallie McClellan Entertains for Miss Alice Thomas on Friday.

Miss Sallie McClellan very pleasantly entertained Miss Alice Thomas at the home of the former's parents, Mr. and Mrs. R. McClellan, on West Liberty street, Friday afternoon in honor of her approaching marriage, which is to be solemnized in this city on March 10th to Mr. J. A. Forsyth of Brevard, N. C.

The entertainment was in the nature of a linen shower and about fifty of the young ladies were present to pay their respects to the honored guests.

They were met at the front door by little Misses Kathryn McClellan and Martha Tison and ushered into the large reception room, where they were introduced to the coming bride.

Refreshments were served consisting of punch and cake, and altogether a very pleasant afternoon was had among the many friends of the young honoree. Many beautiful and handsome linen presents were received, including lovely rare pieces of handiwork.

S.S.S. BEST TREATMENT FOR CATARRH

S. S. S. is the best treatment for Catarrh because it is a perfect blood purifier. It is the only medicine that is able to get down into the circulation and entirely remove the catarrhal matter and impurities which produce the trouble. As long as the mucous membranes and tissues are kept inflamed and irritated by this impure and infected condition of the blood Catarrh will remain. Its disagreeable and dangerous symptoms, of ringing noises in the ears, mucus dropping back into the throat, headaches, watery eyes, difficult breathing, and even stomach disorders and weakened health, cannot be permanently relieved until the blood is purified. Nothing equals S. S. S. for this purpose. It goes down to the very root of the trouble, and removes every particle of the catarrhal matter from the blood and enriches this vital fluid so that all the mucous surfaces are supplied with nutritive, healthful qualities, instead of being constantly irritated and inflamed by impurities in the circulation. Then the symptoms begin to pass away and when S. S. S. has entirely purified the blood, Catarrh is permanently cured and the general health greatly built up. Book on Catarrh and any medical advice desired sent free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

FOR CITY MARSHAL.

To the Voters of the City of Gainesville:

I am a candidate for City Marshal, for re-election on April 13. I have served the people faithfully and efficiently, night and day, and my record is open for inspection.

If my service during the past year has been satisfactory I ask the support and vote of each and every citizen who is qualified. I can only promise the same service as I have endeavored to give in the past.

Yours for order,
BEN T. ARNOW.

I take this method of informing the public that I am a candidate for City Marshal at the election to be held on April 13, 1909. I respectfully solicit the support of all voters, irrespective of party affiliation, and promise to faithfully and impartially discharge the duties of the office should I be elected. Respectfully,

CHAS. C. WARREN.

I respectfully announce myself a candidate for the office of City Marshal, to be voted for at the election on April 13, 1909. If elected I will faithfully discharge the duties of the office without fear or favor. I respectfully solicit the votes of all, irrespective of party affiliation.

CHAS. M. DELL.

FOR TAX ASSESSOR.

To the Voters of the City of Gainesville:

I respectfully announce myself a candidate for City Tax Assessor for the year 1909. Having been Tax Assessor for four years, I am fully prepared to fill the office, as my record will show, the city assessment having been increased in that time from a little over \$600,000 to over \$1,000,000. I was prevented from running for this office last year on account of sickness, and now respectfully solicit your votes.

W. M. BRADFORD.

To the Voters of Gainesville:

I hereby announce that I am a candidate for re-election to the office of City Tax Assessor for the year 1909, in the election to be held on April 13th, and most earnestly request you all to give me your vote and support for the position.

Thanking you for your past endorsement, I remain, Yours very truly,
B. R. COLSON.
